SUMMARY

Motivated and aspiring Software engineer with a passion for solving complex business problems. Proficient in fundamental concepts of computer engineering and equipped with strong programming skills in Python and excel. Possesses a solid understanding of basic Machine Learning Concepts and data structures and algorithms.

EDUCATION

HSC
Seth Hirachand Mutha College, Kalyan West, 72.15%
📅 2019 - 2020

B.E. in Computer Engineering
A.P. Shah Institute Of Technology, Kasarvadavli, Thane, 72 %
📅 Present

SKILLS

Languages: Python

Database: SQL

Other: Machine Learning, Basic excel, Salesforce CRM platform

CERTIFICATES

SQL(Basic)   **Java Programming**
Hackerrank • 2023   **Oracle • 2023**

PROJECTS

Recyclemate

https://github.com/maneabhay16/Recyclemate

Developed Recyclemate, an innovative college project utilizing computer vision and environmental awareness. Implemented a user-friendly system allowing users to upload photos of objects, with the application providing real-time analysis to determine whether the object is recyclable or not.Employed Python for backend logic and Django for seamless web application development. Leveraged computer vision libraries, such as OpenCV, for image processing and recognition. This project not only showcased technical proficiency but also a commitment to leveraging technology for positive environmental impact.

Harvestify

https://github.com/maneabhay16/Machine-Learning

A simple ML and DL-based website that recommends the best crop to grow, and fertilizers to use.
